

K-LOVE on 91.1 serves me as a resident in this community. They give me news, alerts and local events.

Our community would be searching for this information if it wasn't for KLOVE. My family listens exclusively to this station.

The public gets not only information needed, we also get trustworthy, wholesome music and entertainment. I can be sure my children are listening to something worth listening to, not garbage played on other stations. Please leave FM translator service in priority over LPFM. Thank you.
